If you don't wish to receive further information about Mobile Phone Recycling, please tick this box.

S010AUSEERPLY

ARP's company policy is to guarantee zero to landfill. Mobile phones that cannot be re-used, their components are extracted to be used as spare parts.

Older phones that are seriously damaged are sent to material recycling, where materials can be recovered and put back into productive use.

The remaining materials are sent for disposal in an environmentally friendly manner with licensed recyclers.

POSTING INSTRUCTIONS

1. Place up to 4 phones in a padded jiffy bag.
2. Read and sign "Sender's Packaging and No Dangerous Goods Declaration" on the Reply Paid Label.
3. Complete Sender's Details Label, writing clearly in Block Letters.
4. Cut out and fix the Reply Paid Label and the Sender's Details Label onto a sturdy bag with glue or sticky tape.
5. Seal the bag and post it at any Street Post Box or at any Australia Post Outlet.

THERE IS NO POSTAGE TO PAY

Important Note:

We recycle mobile phones ONLY. Please DO NOT post batteries only, or any other waste. This costs ARP and therefore our affiliated charities. Thank you.

Please use a strong and sturdy bag that cannot break open during postage.

DON'T DUMP IT DONATE IT

Every recycled mobile phone you donate will help raise funds for ausEE to support and assistance to individuals and their families affected by eosinophilic gastrointestinal disorders.

Do you have a spare mobile phone sitting around on a shelf or in a drawer? You can now recycle it in an environmentally and socially responsible manner, and contribute to improving the quality of life for individuals suffering, at the same time.

By recycling your old or redundant mobile phone, you are helping to:

- Raise funds for ausEE in Australia.
- Preserve the environment by keeping your unused mobile phone out of landfill.
- Prevent the premature use of new resources.
- Contribute to the optimum recycling solution, that of re-use.
